## **INTRODUCTION**

The South Dakota Emergency Medical Services Office is charged with ensuring quality in pre-hospital emergency medical care and continues to regard the staffing of ambulance services in the State as a high priority. As the Course Coordinator, you are responsible for conducting each course in accordance with National Educational Standards and State policy. Ultimately, you are preparing each student for certification. Contact the Emergency Medical Specialist in your area for any questions you may have.

The information within this guide is provided to support you, the Course Coordinator, in preparing and conducting an EMT course. This guide is designed to assist you with the steps necessary to implement a course as well as the necessary forms. The forms can be used as “masters” to be copied as necessary.

## **CHAPTER 1: RESPONSIBILITIES OF THE COURSE COORDINATOR**

We recommend that you use the NHTSA National Educations Standards for developing your course of instruction as your students will be tested on these standards.

Student textbooks can be purchased from the publisher or bookstore of your choice. A list of EMS publishers is available to you through the South Dakota Department of Public Safety Web Site [http://dps.sd.gov/emergency\\_services/emergency\\_medical\\_services/emt\\_courses\\_training.aspx](http://dps.sd.gov/emergency_services/emergency_medical_services/emt_courses_training.aspx) Student textbooks are mandatory while student workbooks are recommended. Additional programs or software that publishers offer are at the discretion of the Course Coordinator.

The information that follows is to clarify the steps and to provide you with the forms that you as the course coordinator are required to provide, when conducting an EMT Course.

### **General Course Coordinator Standards**

1. Act as a liaison between students, sponsoring agency, local medical community, clinical sites, and State EMS Office.

## **CHAPTER 2: COURSE AND CLINICAL REQUIREMENTS**

The Emergency Medical Technician course follows National Highway Traffic Safety Administration (NHTSA) National Educational Standards. The course standards are performance and competency based. This means, in addition to classroom performance, each student must successfully complete and show competency in clinical and internship settings. Course coordinators should adjust classroom and clinical schedules accordingly.

### **Emergency Medical Technician Course**

Although competency based, it is estimated that an initial EMT course classroom will be approximately 165 hours.

In addition, each student will have to successfully complete the following clinical skills:

- 1) Minimum 10 hours in an emergency department or on an ambulance service, at approved sites.
- 2) Complete 10 patient assessments on live patients or standardized patients.

### **Student Requirements**

The following requirements must be met by students in order to attend courses and take the National Registry practical and CBT exams:

- 1) Be 18 years of age
- 2) Have completed all clinical skills and must submit required documents to State
- 3) Be signed off by Course Coordinator as completing the course

Students with felonious backgrounds must inform their course coordinator and the State EMS Office, either through the Emergency Medical Specialist in the area or the Pierre office. All students must adhere to the National Registry Felony Policy.

### **CHAPTER 3: RESPONSIBILITIES OF THE STATE EMS OFFICE**

1. Approve course applications and assign course numbers.
2. Assist the Course Coordinator in setting up the course.
